

# SHEHRYAR RAZA

Principal Software Engineer | MERN Stack Developer w/ React Native

☎ +92-3228409425 | ✉ [shehryarraza320@gmail.com](mailto:shehryarraza320@gmail.com) |  [shehryarraza](https://www.linkedin.com/in/shehryarraza) |  [razashehryar](https://github.com/razashehryar)

## Summary

Principal Software Engineer with over 7 years of experience specializing in the MERN stack, React Native, and AWS cloud architecture. Proven track record of delivering production-grade systems across fintech, digital payments, and enterprise SaaS for global clients in the US, UK, and Saudi Arabia. Expert in Infrastructure as Code (CDK) and AI-assisted SDLC workflows, with a demonstrated ability to reduce development cycles. Passionate about building scalable, high-reliability notification and financial systems while mentoring teams to achieve technical excellence.

## Key Achievements

- Reduced feature development cycle by ~35–40% through reusable component architecture
- Improved API performance by ~30% via query optimisation, caching, and backend refactoring.
- Automated reporting systems saving 10+ hours per week in manual operational effort.
- Built scalable notification system with high delivery reliability using Twilio + cloud task queues.
- Implemented AI-assisted structured SDLC workflows to accelerate requirement-to-delivery cycles.

## Experience

### **NorthBay Solutions - Principal Software Engineer**

**Mar'23 – Present**

#### ***Fleet Management Portal - Cloud-based fleet operations system for vehicle tracking, management, and administrative workflows***

- Architecting backend infrastructure using AWS Amplify Gen 2 (CDK-based IaC).
- Building scalable frontend using Vue 3 (Composition API).
- Implemented role-based access control (RBAC) for fleet operators & admins.
- Defined infrastructure and environments via AWS CDK stacks (dev/staging/prod).
- Leveraged AI-assisted development workflows (Kiro) by defining custom steering files, custom custom AI agents orchestration, and automated hooks to generate structured design, requirements, backlog, and task artifacts.
- Accelerated feature delivery cycle through structured requirement-to-implementation automation.

#### ***Digital Wallet app (React Native) - A production-grade digital wallet enabling peer-to-peer/ international transfers, bill payments, and secure financial transactions***

- Led full-cycle development of a digital wallet, integrating third-party APIs
- Enhanced UX via performance optimisation and testing.
- Implemented secure transaction flows with proper error handling & audit logs.

### **Seven Invites - Senior Software Engineer**

**Aug'21 – Dec'22**

- Developed reusable React component libraries reducing feature development cycle by ~40%.
- Integrated Stripe payment processing with comprehensive validation and error handling.
- Built scalable notification infrastructure using Twilio and GCP Tasks.
- Contributed to system architecture improvements for better maintainability and scalability.

### **Neural Soft Solutions - Software Developer**

**Jul'19 – Aug'21**

- Built React Native POS application with integrated digital payment solutions.
- Improved app response time by ~30% via performance optimisation techniques.
- Collaborated with UI/UX teams to enhance product usability and user engagement.

### **The Bank of Punjab - Software Developer**

**Nov'18 – Jul'19**

- Optimised SQL queries resulting in ~25% performance improvement.
- Automated operational reporting processes, saving 10+ hours per week in manual effort.
- Developed internal data tools using Oracle SQL and PL/SQL.

### **Skills & Tools**

- Frontend & Mobile: React, React Native, Next.js, Vue 3 (Composition API), TypeScript, TailwindCSS
- Backend & API: Node.js, Express.js, NestJS, RESTful Architectures, Strapi, Firebase
- Cloud & Infrastructure: AWS Amplify Gen 2, AWS CDK (IaC), GCP Tasks, App Environments (Dev/Staging/Prod)
- Databases & Scaling: MongoDB, Oracle SQL, PL/SQL, Redis Caching, Query Optimization
- DevOps & AI Tools G: Git, CI/CD, Jest, Kiro (AI-assisted workflows), Twilio, Power BI

### **Education**

#### **BSc Computer Sciences - ITU, Lahore**

**Nov'13 – Jun'18**

*Research Areas:* AI, HCI, Computer Vision, Mobile Development, Agile
